The monumental building of Philips Bedrijfsschool has been completely transformed into 442 modern city lofts. With the additional upcoming facilities as a communal launderette, rooftop terrace, courtyard and several restaurants, you are assured of an enjoyable stay in Eindhoven.

Please note: The launderette can be used already. All other above-mentioned facilities are currently in development. Residents of Philips Bedrijfsschool will be informed by us once these facilities are completed and accessible.

The spacious lofts have an industrial look, with high ceilings and large windows. Each residence has its own kitchen and bathroom. A mezzanine is placed above the kitchen area, extending the living spaces with a bathroom and bedroom. The luxurious lofts come fully furnished (excl. linen).

Important: All residences have a unique lay-out. The former school building is completely refurbished into modern lofts, conserving the original ornaments. The construction beams are integrated into the design, giving the residences a cool industrial look. However, it is possible that low construction beams are located in the bathroom or bedroom area of the loft (see photo). We cannot tell on forehand whether such construction beam is located in the residence.
